

THE EMERGENCY RESPONDER DECISION SUPPORT TOOL

Responder Safety and Personal Protective Equipment (PPE)

RKB MISSION

Provide emergency responders, purchasers, and planners with a trusted, integrated, online source of information on products, standards, certifications, grants, and other equipment-related information.

PRODUCT DETAILS

The Products Section includes commercially available product information that has been uploaded directly and voluntarily by the manufacturer. The products are all relevant to the emergency response community, and all information is reviewed by the RKB staff prior to publishing. While a product does not currently have to be third-party certified to a standard to be placed on the RKB, certified equipment should be considered first.

KNOWLEDGE LINKS

Certifications, standards, operational assessments, training, user opinions, and other relevant information will be linked to appropriate product records in the Knowledge Links section on the right-hand side of the page.
